

Manufacturing Business Intelligence Solution Training Agenda

Training Benefits:

KNOWLEDGE IS POWER

- Accelerated Learning
- Confidence
- Quality Solution
- Time-to-Value

Great enterprise manufacturing intelligence solutions are the result of good planning and execution, and what better way to prepare for building your company's solution than investing in a few days of intense, hands-on training. Acumence training courses do more than just teach the basics, we explain the philosophy of enterprise manufacturing intelligence, and provide you with all the tools to successfully develop, deploy, and maintain your company's solution.
